- 1 very poor

## Access to next level of education/professions

The All-round metal roofer can transfer to a relevant qualification at level 4 such as Work planner specialist contracting, Foreman construction/infrastructure, Foreman specialist contracting or Supervisor construction. Within senior secondary vocational education, it is also possible after completing a course at level 3 or 4 to follow the one-year preliminary course Management based on professional skills. The All-round metal roofer can also specialise in the field of new technologies and multifunctional roofs. This requires following supplementary training, study courses or obtaining senior secondary vocational education certificates.

## International agreements

All-round metal roofer is not a regulated profession in the Netherlands. However, the education and training for this profession on qualification level 3 is regulated under the European directive 2005/36/EC, amended by directive 2013/55/EU. The regulated education and training gives access to regulated professions at the level of a diploma according to article 11 of this directive.

## Legal basis

Act on Vocational Education and Training (WEB), registered number of qualification (crebo): 25869 The education and training for this qualification is offered as of 01-08-2023.

### 6. OFFICIALLY RECOGNISED WAYS OF ACQUIRING THE CERTIFICATE

Senior secondary vocational education features two learning pathways: the school-based pathway (bol) and the training on the job pathway (bbl).

In the school-based pathway, the majority of the course consists of theory at school. The extent of the practical component (vocational practice) is between 20% and 60%. In the training on the job pathway, the extent of vocational practice is at least 60% of the course. The participant works four days a week in a training company, and attends school for theory subjects just one day a week.

In principle it is possible to follow both learning pathways, but which pathway is offered will depend on the individual educational institution.

## Average duration of the education/ training leading to the certificate

3 years (4800 study hours) (depending on previous education)

## **Entry requirements**

### 6. OFFICIALLY RECOGNISED WAYS OF ACQUIRING THE CERTIFICATE

The certificate preparatory vocational secondary education (vmbo) advanced vocational programme, combined programme, or theoretical programme, or a comparable level.

### 7. Additional information

Dutch senior secondary VET is based on qualification files, that each contain one or more qualifications. The information included in part 3 and 4 is derived directly from the qualification file determined by the Minister of Education, Culture and Science. The complete qualification file can be found at <a href="https://www.kwalificatioss.sepb.nl">kwalificatioss.sepb.nl</a>, only in Dutch.

Optional subjects are linked to the qualification. The optional subjects have a total size of 15% of the course duration. The optional subjects completed by the student are listed on the certificate.

Additional information, including a description of the Dutch national qualifications system, is available at the Netherlands National Reference Point (NRP): <a href="www.s-bb.nl">www.s-bb.nl</a>. The NRP is the information centre for vocational qualifications in the Netherlands. SBB has been appointed in this capacity by the Ministry of Education, Culture and Science.
