

1. TITLE OF THE CERTIFICATE (NL)

Diploma Beroepsonderwijs
Kwalificatie: Eerste monteur laagspanningsdistributie
Kwalificatiedossier: Infratechniek

In the original language

2. TRANSLATED TITLE OF THE CERTIFICATE (EN)

Certificate Senior Secondary Vocational Education
Qualification: Skilled mechanic low voltage distribution
Qualification file: Infrastructure technology

This translation has no legal status

3. PROFILE OF SKILLS AND COMPETENCES

Core task 1: Installs, fits and prepares distribution networks for use

- 1.1 Prepares work and prepares the work location
- 1.2 Digs holes and ditches and/or creates the cable passage
- 1.3 Installs and fits distribution networks
- 1.4 Prepares the installed and assembled distribution network or transport network and/or (parts of) the station for use
- 1.5 Completes and registers work for installation and fitting work

Core task 2: Carries out work on and commissions low-voltage distribution networks

- 2.1 Prepares work on low-voltage distribution networks
- 2.2 Decommissions mains-side low-voltage components or installations
- 2.3 Fits parts in low-voltage distribution networks
- 2.4 Checks and tests fitted work
- 2.5 Administers and completes work on low-voltage distribution networks

Core task 3: Maintains and repairs faults in low-voltage distribution networks

- 3.1 Prepares for maintenance on and resolving faults in low-voltage distribution networks
- 3.2 Localises and analyses faults in low-voltage distribution networks
- 3.3 Decommissions low-voltage distribution networks
- 3.4 Maintains, replaces and repairs parts in low-voltage distribution networks
- 3.5 Commissions maintained/repared low-voltage distribution networks
- 3.6 Administers and completes work on low-voltage distribution networks

Core task 4: Organises work to be carried out on low-voltage distribution networks

- 4.1 Allocates work to be carried out and gives instructions
- 4.2 Supervises work to be carried out
- 4.3 Monitors the progress of work to be carried out

4. RANGE OF OCCUPATIONS ACCESSIBLE TO THE HOLDER OF THE CERTIFICATE

The Skilled mechanic low voltage distribution is often employed at contracting, installation or network companies. He installs low-voltage networks, fits mains side low-voltage components, fits consumer connections at customers and carries out maintenance on low-voltage networks and mains-side components. He also organises the daily work for and supports colleagues.

*** Explanatory note**

This document is designed to provide additional information about the specified certificate and does not have any legal status in itself. The format of the description is based on the following texts: Council Resolution 93/C 49/01 of 3 December 1992 on the transparency of qualifications, Council Resolution 96/C 224/04 of 15 July 1996 on the transparency of vocational training certificates, and Recommendation 2001/613/EC of the European Parliament and of the Council of 10 July 2001 on mobility within the Community for students, persons undergoing training, volunteers, teachers and trainers.

9	very good																				
8	good																				
7	very satisfactory																				
6	pass																				
5	fail																				
4	unsatisfactory																				
3	very unsatisfactory																				
2	poor																				
1	very poor																				
<p>Access to next level of education/professions The Skilled mechanic low voltage distribution can:</p> <ul style="list-style-type: none"> • broaden his knowledge to Skilled mechanic gas, water or heating distribution; • advance to Electrical engineering technician; • broaden his knowledge to Skilled mechanic medium voltage distribution; • broaden his knowledge to Skilled mechanic data distribution; • advance to the position of Foreman or Work planner. 	<p>International agreements Skilled mechanic low voltage distribution is not a regulated profession in the Netherlands. However, the education and training for this profession on qualification level 3 is regulated under the European directive 2005/36/EC, amended by directive 2013/55/EU. The regulated education and training gives access to regulated professions at the level of a diploma according to article 11 of this directive.</p>																				
<p>Legal basis Act on Vocational Education and Training (WEB), registered number of qualification (crebo): 27011 The education and training for this qualification is offered as of 01-08-2024.</p>																					

6. OFFICIALLY RECOGNISED WAYS OF ACQUIRING THE CERTIFICATE

<p>Senior secondary vocational education features two learning pathways: the school-based pathway (bol) and the training on the job pathway (bbl). In the school-based pathway, the majority of the course consists of theory at school. The extent of the practical component (vocational practice) is between 20% and 60%. In the training on the job pathway, the extent of vocational practice is at least 60% of the course. The participant works four days a week in a training company, and attends school for theory subjects just one day a week. In principle it is possible to follow both learning pathways, but which pathway is offered will depend on the individual educational institution.</p>	
<p>Average duration of the education/ training leading to the certificate</p>	<p>3 years (4800 study hours) (depending on previous education)</p>
<p>Entry requirements The certificate preparatory vocational secondary education (vmbo) advanced vocational programme, combined programme, or theoretical programme, or a comparable level.</p>	

7. ADDITIONAL INFORMATION

<p>Dutch senior secondary VET is based on qualification files, that each contain one or more qualifications. The information included in part 3 and 4 is derived directly from the qualification file determined by the Minister of Education, Culture and Science. The complete qualification file can be found at kwalificaties.s-bb.nl, only in Dutch.</p> <p>Optional subjects are linked to the qualification. The optional subjects have a total size of 15% of the course duration. The optional subjects completed by the student are listed on the certificate.</p> <p>Additional information, including a description of the Dutch national qualifications system, is available at the Netherlands National Reference Point (NRP): www.s-bb.nl. The NRP is the information centre for vocational</p>
