

1. TITLE OF THE CERTIFICATE (NL)

Diploma Beroepsonderwijs
Kwalificatie: Eerste monteur hoogspanningstransport
Kwalificatiedossier: Infratechniek

In the original language

2. TRANSLATED TITLE OF THE CERTIFICATE (EN)

Certificate Senior Secondary Vocational Education
Qualification: Skilled mechanic high voltage transport
Qualification file: Infrastructure technology

This translation has no legal status

3. PROFILE OF SKILLS AND COMPETENCES

Core task 1: Installs, fits and prepares distribution networks for use

- 1.1 Prepares work and prepares the work location
- 1.2 Digs holes and ditches and/or creates the cable passage
- 1.3 Installs and fits distribution networks
- 1.4 Prepares the installed and assembled distribution network or transport network and/or (parts of) the station for use
- 1.5 Completes and registers work for installation and fitting work

Core task 2: Carries out work on high-voltage transport networks and/or (parts of) high-voltage transport stations

- 2.1 Prepares work in the high-voltage transport networks and/or (parts of) high-voltage transport stations
- 2.2 Decommissions components and/or installations in high-voltage transport networks
- 2.3 Fits parts in high-voltage distribution networks
- 2.4 Commissions maintained or repaired parts in high-voltage transport networks
- 2.5 Carries out administrative work and completes work

Core task 3: Maintains, repairs and resolves faults in the high-voltage transport

- 3.1 Prepares for maintenance, repair work and resolving faults in (parts of) high-voltage transport networks
- 3.2 Localises and analyses faults in (parts of) high voltage transport networks
- 3.3 Decommissions components and/or installations in high-voltage transport networks
- 3.4 Maintains, replaces and repairs parts of high-voltage transport networks
- 3.5 Checks and tests maintained or repaired parts of high-voltage transport networks
- 3.6 Carries out administrative work and completes maintenance and repair work

Core task 4: Organises work to be carried out on the high-voltage transport network and/or (parts of) high-voltage transport stations

- 4.1 Allocates work to be carried out and gives instructions
- 4.2 Supervises work to be carried out
- 4.3 Monitors the progress of work to be carried out

4. RANGE OF OCCUPATIONS ACCESSIBLE TO THE HOLDER OF THE CERTIFICATE

The Skilled mechanic high voltage transport is often employed at contracting, installation or network companies. He works on new and existing transport- and medium-voltage networks in high voltage for electricity and

*** Explanatory note**

This document is designed to provide additional information about the specified certificate and does not have any legal status in itself. The format of the description is based on the following texts: Council Resolution 93/C 49/01 of 3 December 1992 on the transparency of qualifications, Council Resolution 96/C 224/04 of 15 July 1996 on the transparency of vocational training certificates, and Recommendation 2001/613/EC of the European Parliament and of the Council of 10 July 2001 on mobility within the Community for students, persons undergoing training, volunteers, teachers and trainers.

4. RANGE OF OCCUPATIONS ACCESSIBLE TO THE HOLDER OF THE CERTIFICATE

components, including (parts of) high-voltage stations. The Skilled mechanic high voltage transport can be appointed as being responsible for the work by the team leader.

5. OFFICIAL BASIS OF THE CERTIFICATE

Name and status of the body awarding the certificate The certificate issued on completion of the programme is signed by the examination board at the school where the pupil attended the programme.	Name and status of the national/regional authority providing accreditation/recognition of the certificate Ministry of Education, Culture and Science
Level of the certificate (national or international) Qualification level 3 of the Dutch VET qualification structure Characteristics: implementation of more than just the own block of tasks. The professional is able to account for his or her actions towards colleagues, and monitors and supervises the work of others. The range of tasks also includes drafting work preparation procedures. NLQF-niveau 3 - EQF level 3 - ISCED 3C	Grading scale / Pass requirements 10 excellent 9 very good 8 good 7 very satisfactory 6 pass 5 fail 4 unsatisfactory 3 very unsatisfactory 2 poor 1 very poor
Access to next level of education/professions The Skilled mechanic high voltage distribution can: <ul style="list-style-type: none"> • advance to Technician electrotechnology; • broaden his knowledge in high voltage lines and masts; • broaden his knowledge in automation in high voltage technology; • advance to Supervisor or Planner. 	International agreements Skilled mechanic high voltage transport is not a regulated profession in the Netherlands. However, the education and training for this profession on qualification level 3 is regulated under the European directive 2005/36/EC, amended by directive 2013/55/EU. The regulated education and training gives access to regulated professions at the level of a diploma according to article 11 of this directive.
Legal basis Act on Vocational Education and Training (WEB), registered number of qualification (crebo): 27014 The education and training for this qualification is offered as of 01-08-2024.	

6. OFFICIALLY RECOGNISED WAYS OF ACQUIRING THE CERTIFICATE

Senior secondary vocational education features two learning pathways: the school-based pathway (bol) and the training on the job pathway (bbi).

In the school-based pathway, the majority of the course consists of theory at school. The extent of the practical component (vocational practice) is between 20% and 60%. In the training on the job pathway, the extent of vocational practice is at least 60% of the course. The participant works four days a week in a training company, and attends school for theory subjects just one day a week.

In principle it is possible to follow both learning pathways, but which pathway is offered will depend on the individual educational institution.

Average duration of the education/ training leading to the certificate	3 years (4800 study hours) (depending on previous education)
---	---

Entry requirements

The certificate preparatory vocational secondary education (vmbo) advanced vocational programme, combined programme, or theoretical programme, or a comparable level.

7. ADDITIONAL INFORMATION

Dutch senior secondary VET is based on qualification files, that each contain one or more qualifications. The information included in part 3 and 4 is derived directly from the qualification file determined by the Minister of Education, Culture and Science. The complete qualification file can be found at kwalificaties.s-bb.nl, only in Dutch.

7. ADDITIONAL INFORMATION

Optional subjects are linked to the qualification. The optional subjects have a total size of 15% of the course duration. The optional subjects completed by the student are listed on the certificate.

Additional information, including a description of the Dutch national qualifications system, is available at the Netherlands National Reference Point (NRP): www.s-bb.nl. The NRP is the information centre for vocational qualifications in the Netherlands. SBB has been appointed in this capacity by the Ministry of Education, Culture and Science.
