The extent of the practical component (vocational practice) is between 20% and 60%. In the training on the job pathway, the extent of vocational practice is at least 60% of the course. The participant works four days a week in a training company, and attends school for theory subjects just one day a week.<br/>                 In principle it is possible to follow both learning pathways, but which pathway is offered will depend on the individual educational institution.</p> |  |
