

1. TITLE OF THE CERTIFICATE (NL)

Diploma Beroepsonderwijs
Kwalificatie: Eerste monteur service en onderhoud werktuigbouw
Kwalificatiedossier: Service- en onderhoudstechniek

In the original language

2. TRANSLATED TITLE OF THE CERTIFICATE (EN)

Certificate Senior Secondary Vocational Education
Qualification: Skilled mechanic service and maintenance mechanical engineering
Qualification file: Service and maintenance technology

This translation has no legal status

3. PROFILE OF SKILLS AND COMPETENCES

Core task 1: Inspects equipment, installations and systems

- 1.1 Prepares for the inspection of equipment, installations and systems
- 1.2 Takes precautions for inspection working duties
- 1.3 Performs sensory inspection on equipment, installations and systems
- 1.4 Performs measurements and tests on equipment, installations and systems
- 1.5 Makes an initial diagnosis and reports results
- 1.6 Rounds off inspection work on equipment, installations and systems

Core task 2: Optimises equipment, installations and systems and corrects malfunctions

- 2.1 Prepares for resolving malfunctions and optimising equipment, installations and system
- 2.2 Takes precautionary measures for resolving malfunctions and optimising equipment, installations and systems
- 2.3 Disassembles, modifies, repairs and assembles components of equipment, installations and systems
- 2.4 Checks and tests work performed on equipment, installations and systems
- 2.5 Delivers equipment, installations and systems
- 2.6 Rounds off maintenance and modification work

Core task 3: Locates (single) malfunctions in the mechanical parts of equipment, installations and systems

- 3.1 Prepares for locating malfunctions in the mechanical parts of equipment, installations and systems
- 3.2 Locates and analyses (single) malfunctions in the mechanical parts of equipment, installations and systems
- 3.3 Adjusts and regulates the mechanical parts of equipment, installations and systems
- 3.4 Supervises less experienced colleagues

4. RANGE OF OCCUPATIONS ACCESSIBLE TO THE HOLDER OF THE CERTIFICATE

The Skilled mechanic service and maintenance mechanical engineering works at industrial and supply companies of (semi) products and (semi) finished products such as the metal products industry, machine and equipment construction, transport equipment industry, food and beverage industry, (petro)chemicals and wood and paper industry. This can concern both small and larger companies. Within these companies he works in a technical service or in the breakdown and maintenance department. He can also work in a service company that is hired for service and maintenance. In that case he has to deal with a diversity of clients/customers. The Skilled mechanic service and maintenance mechanical engineering carries out maintenance on the mechanical engineering part of installations and carries out simple work on the electrical engineering parts. He detects and resolves (single, occurring in one place) malfunctions and carries out repairs and modifications.

*** Explanatory note**

This document is designed to provide additional information about the specified certificate and does not have any legal status in itself. The format of the description is based on the following texts: Council Resolution 93/C 49/01 of 3 December 1992 on the transparency of qualifications, Council Resolution 96/C 224/04 of 15 July 1996 on the transparency of vocational training certificates, and Recommendation 2001/613/EC of the European Parliament and of the Council of 10 July 2001 on mobility within the Community for students, persons undergoing training, volunteers, teachers and trainers.

<p>Legal basis Act on Vocational Education and Training (WEB), registered number of qualification (crebo): 25306 The education and training for this qualification is offered as of 01-08-2015.</p>																					

6. OFFICIALLY RECOGNISED WAYS OF ACQUIRING THE CERTIFICATE

<p>Senior secondary vocational education features two learning pathways: the school-based pathway (bol) and the training on the job pathway (bbl). In the school-based pathway, the majority of the course consists of theory at school. The extent of the practical component (vocational practice) is between 20% and 60%. In the training on the job pathway, the extent of vocational practice is at least 60% of the course. The participant works four days a week in a training company, and attends school for theory subjects just one day a week. In principle it is possible to follow both learning pathways, but which pathway is offered will depend on the individual educational institution.</p>	
<p>Average duration of the education/ training leading to the certificate</p>	<p>3 years (4800 study hours) (depending on previous education)</p>
<p>Entry requirements The certificate preparatory vocational secondary education (vmbo) advanced vocational programme, combined programme, or theoretical programme, or a comparable level.</p>	

7. ADDITIONAL INFORMATION

<p>Dutch senior secondary VET is based on qualification files, that each contain one or more qualifications. The information included in part 3 and 4 is derived directly from the qualification file determined by the Minister of Education, Culture and Science. The complete qualification file can be found at kwalificaties.s-bb.nl, only in Dutch.</p> <p>Optional subjects are linked to the qualification. The optional subjects have a total size of 15% of the course duration. The optional subjects completed by the student are listed on the certificate.</p> <p>Additional information, including a description of the Dutch national qualifications system, is available at the Netherlands National Reference Point (NRP): www.s-bb.nl. The NRP is the information centre for vocational</p>
